

## United Insulated Structures Corp.

### CLIENT:

The Crown Group Inc.  
Park Plaza  
Cary, Illinois

### PROJECT GOAL:

To provide all design, engineering and construction required for the development of a Retail Shopping Center including a Walgreens Drug Store as the anchor tenant and all site development.

### COMMENTARY:

The Crown Group Inc. contracted with UISC to construct another Retail Shopping Center, this time in Cary, Illinois.

Building areas include the following:

- A 14,000 square foot, Walgreens Drug Store
- A 8,000 square foot, Centegra Health Care Facility
- A 4,000 square foot, Retail Shopping Center equipped for three tenants

Walgreens dictated a very aggressive schedule that required UISC to implement a dynamic compaction process to accommodate the very poor soil conditions throughout. As a result, the Client experienced substantial savings.

The entire Project, including design, permit process and construction was completed within five months of contract award.
